One inch one time, \$1.00; one week, \$1.50; six  
months, \$9.00; twelve months, \$15.00.  
One copy, per week, \$1.00  
Six months, \$6.00; twelve months, \$12.00.  
For further information apply for card of  
rate.

Special local 50 cents per inch for insertion  
in, among reading matter 20 cents per line.  
Obituary, 25 cents per line. Information  
respect, announcements of festivals, concerts  
at all entertainments where an admittance  
fee is charged 5 cents per line for each inser-  
tion.

ROYAL  
BAKING  
POWDER  
Absolutely Pure.

This powder never varies. A marvel of  
purity, strength and wholesomeness. It  
cannot be sold in competition with the multitudes  
of low cost, short weight, alum and sulphate  
powders. It can be had at the ROYAL BAKING  
POWDER CO., 106 Wall St., N. Y.

## BUSINESS CARDS.

FIRE, STORM OR ACCIDENT INSURANCE  
On easy and liberal terms, will do  
well to call on

AUSTIN D. HICKS  
INSURANCE AGENT.

Office over Bank of Hopkinsville.  
HOPKINSVILLE, KY.

IN-DOOR FARMING.  
How to Make Rural Life Agreeable and  
Profitable to the Entire Family.

When a woman consents to take  
charge of the household on a farm she  
is either brave or ignorant. If brave,  
healthy and vigorous, but not too am-  
bitious, she may be happy in the  
 secluded busy farm home, where the  
 labors are light, trifles may and  
 profits few, if reckoned in cash, but if  
 in pure air, pure water and freshest of  
 food, they are many.

The first requisite for in-door farm-  
 ing is health, that the body may be  
 strong to endure and the mind sound  
 to plan, for much lies in the laying out  
 of the day's labor. Where there is no  
 mark set there is no goal won. Executive  
 ability is a treasure to farmers  
 wives, who have to manage what it  
 is not must work twice as hard and  
 accomplish less than her fortunate sister.

The second requisite is economy,  
true economy, that saves every thing,  
 even time. I do not call it economy to  
 dry apples at four cents a pound, but  
 will pay better to taking runners off  
 strawberry plants, decapitating rasp-  
 berry and blackberry vines or taking a  
 drink of water when you are thirsty, or lots  
 of things that will give cash, or money  
 saved is a penny earned, and a good  
 garden is the farmer's savings bank.

Now do I think it economy to try and  
 do without help in doors. I do not  
 agree with him who said: "One woman  
 should do in doors for three men out." One  
 can get along somehow, but it is  
 at the cost of health and many things  
 that must be given up. It is difficult  
 to have done. It is a difficult  
 task to have done.

The venture proved a success on ac-  
 count of easy access to the Boston  
 markets with the fresh fish. For the  
 next four or five years the growth of  
 business was very rapid, until now  
 twenty deep-water weirs can be  
 counted from Long Point, Province-  
 line to the Cape Cod Canal. The off-shore  
 ends of the traps are in water about forty  
 feet deep, and one hundred and thirty  
 poles, either oak or hickory, from twenty  
 to sixty feet long are used as  
 being imbedded in the sand, and the  
 poles were driven into the water instead  
 of being interlaced with laths.

The venture proved a success on ac-  
 count of easy access to the Boston  
 markets with the fresh fish. For the  
 next four or five years the growth of  
 business was very rapid, until now  
 twenty deep-water weirs can be  
 counted from Long Point, Province-  
 line to the Cape Cod Canal. The off-shore  
 ends of the traps are in water about forty  
 feet deep, and one hundred and thirty  
 poles, either oak or hickory, from twenty  
 to sixty feet long are used as  
 being imbedded in the sand, and the  
 poles were driven into the water instead  
 of being interlaced with laths.

The fact that fish, when pursued or  
 frightened, invariably turn off shore  
 for safety in deep water, is taken ad-  
 vantage of in constructing the traps.

The poles are driven a short distance  
 apart in a straight line from the shore  
 to the sea. At the end of this line the  
 poles are driven in the shape of a  
 heart, with the point off shore, and an  
 entrance on each side where it joins  
 the header, making it somewhat re-  
 sembling an arrow.

The fish when swimming along  
 strike the header, and naturally turn-  
 off shore, for safety follow the  
 header, and they are driven into  
 the heart, from which they seldom  
 escape, as they always seek deeper  
 water; instead of trying to get out the  
 way they come in. At the point of the  
 heart the poles are driven in a circle  
 and connected with the heart. This  
 circle, which has netting on the bottom  
 as well as the sides is called the  
 header, making it somewhat re-  
 sembling an arrow.

HERE AND THERE.

W. E. Embry will pay 25 cents for choice picked wool delivered here.

The stand and pavilion at the cemetery were taken down this week.

Boarders wanted by Mrs. S. H. Harrison, 7th St. Best of board.

The Church Hill Grange Sale will attract a big crowd to-day.

W. E. Embry shipped 150 extra lambs to Tatam Embry, Louisville, Tuesday.

Buy the Heilman Separator from L. G. Williams & Co. It is guaranteed to give satisfaction.

W. E. Embry has 150 stock ewes for sale at \$2.25 each, and wants 100 early lambs at \$4.25.

Dr. P. T. Rogers has bought a lot on 18th street from Mr. K. Twyman, paying therefor the sum of \$600 cash.

Cerulean Springs will be open June 1st for the reception of guests.

Mr. Harper will run the hotel himself this season.

See the Empire Mower at L. G. Williams & Co's. Farmers say it's the best sold in the city. Only \$50.00. Cheapest and best mower on earth.

Rev. and Mrs. J. N. Prestridge returned from their bridal tour yesterday and will be given a reception at Bethel Female College this evening by the ladies of the Baptist church.

Rev. Fred D. Hale, of Louisville, will preach at the Baptist church next Sunday morning and deliver the annual sermon before the young ladies of Bethel Female College on Sunday evening.

Policeman Waddington killed another mad dog Tuesday. This is about the right time of the year to thin out the fewest canines, and the council should re-enact its dog ordinance of last year.

The friends of Rev. J. N. Prestridge, whether connected with the Baptist congregation or not, are invited to meet at Bethel Female College tonight, in order to welcome Pastor Prestridge and his bride on their return to Hopkinsville.

Miss Mollie Vaughn is visiting friends at Princeton.

Dr. C. P. Bacon, of Evansville, was in the city Tuesday.

Miss Bobbie Watson, of Cadiz, is the guest of Mrs. Jesup.

Miss Mary Stoner has returned to the city after a protracted absence.

Miss Sophia Rossington is visiting relatives in New Providence, Tenn.

Miss Carrie Hall, of Breckenridge county, is visiting Mrs. Bailey Waller.

Miss Geneva O'Brien, of Hadencville, is visiting Miss Sallie Rust.

A. B. Croft and H. Clay McCord, of Croton, were in the city the week.

Mr. Abe L. Foard, of Earlington, is visiting relatives at Church Hill, his old home.

Miss Jennie Hamilton, of Roaring Springs, is visiting Miss Mattie Johnson.

Miss Julia Venable has gone to Nashville on a visit, to be gone several weeks.

Mr. and Mrs. Zeno F. Young, of Madisonville, are the guests of Mr. and Mrs. Chas. M. Meacham.

Mrs. Jos. D. Kinkead, of Cincinnati, is visiting her mother Mrs. Catherine Mauser.

It would be hard to find a nicer place to drop into at this season of the year, than A. L. Wilson's ice-cream parlor. The cream, sherbet, berries and cake served on his tables are not surpassed anywhere, and those wishing to treat themselves to some first-class refreshments should give Dixie a call. We have sampled his goods and know them to be tip-top in every respect.

The claim of Judge Winfree that he is entitled to the salary and fees of the office of County Judge from the date of his election, is denied by the attorneys of Judge Anderson. The year's salary of \$800 was allowed by the Court of Claims "for services rendered" and Winfree's right to it is denied. The fees since Judge Grace's decision are conceded.

The murder of Chas. Cross by Jno. Henry Perkins, reported last Tuesday, took place at Tutt's store in Todd county and not in Christian. The place of the killing was at Slip Up, not far from the county line. Cross was in the act of picking up a rock when Perkins shot him twice. The first shot wounded him in the arm and the second struck him in the heart, killing him instantly. Perkins is still at large.

Dr. Chas. F. Deems lectured at the Opera House Tuesday night on the subject "Before and After Marriage." He had a good house, although the notice was short. His lecture was a very scholarly and entertaining treatment of a trite subject and abounded in good hits and instructive advice to both married and unmarried. Deems left Wednesday for his home in New York.

Bill Bradshaw, col., one of the coal thieves tried last Tuesday, was arrested for carrying concealed weapons. The jailer took a pistol from his person when he was arrested. The Court imposed a fine of \$25 and ten days in jail. There is a crying demand for a work house where fines can be worked out in such cases as this. Wouldn't it be a good idea to make Bradshaw work on the streets at \$1.00 a day until his fine is paid? It would pay a great deal better than confining him at \$2 a day.

Walker Moore and Geo. Petree, two negroes indicted by the last Grand Jury for violating the prohibition law, were arraigned before the county court Wednesday. Zack Ryan testified that on several occasions he and others had purchased a quart of whisky from them and had also bought whisky at 10 cents a drink. The accused parties denied having sold Ryan whisky but said they had bought it for him before the licenses of the dealers expired. The cases were submitted without argument and were dismissed by the court.

To Maintain One Life

you must invent twenty, but truth can never be strengthened by bolstering. The testimony of every lady who has used Dr. Pierce's "Favorite Prescription" for nervous debility and female weakness carries conviction with it. The facts are stated in such a way that no one can doubt them. All these poor, puny girls and sensitive women ladies suffer from can be overcome by means of this wonderful preparation. If you are a sufferer from female weakness, don't fail to employ it.

## SALE OF REAL ESTATE FOR THE Payment of City Taxes.

Issued in the name of G. S. Williams. Taxes and costs.

WALTER F. GARNETT,  
City Collector.

THOS. W. LONG,  
Deputy.

### Coal Thieves Released.

The release of two of the thieves who systematically robbed the coal cars of the L. & N. Railroad last winter, which was the result of a trial before the County Court last Tuesday, is a discouraging finale to some tedious and expensive work of the Railroad Com. Upon the sword testimony of two or three reputable gentlemen, Tony Buckner and Bill Bradshaw were indicted by the last grand jury for stealing coal in the latter part of February. They were arraigned Tuesday and upon their statement that they could not give bond, went into trial before the Judge of the County Court.

In the case of Tony Buckner, Messrs. J. W. Logsdon and Jno. G. Ellis stated on oath that they caught him in the act of filling a sack with coal from a car of the company on the night of Feb. 24th. Several other negroes were with him, some on the car and some filling other sacks.

The whole crowd was arrested, taken into the depot and identified and promptly indicted by the grand jury.

Buckner did not even enter a denial, but simply stated without being sworn that he bought the coal from a barker, but introduced not one atom of proof to establish his claim.

The court without hearing argument in the case dismissed the indictment for lack of evidence to make out a case.

In the case of Bradshaw, Mr. Logsdon testified that he saw him taking coal away from a car in a wheel-barrow, identified him and had him indicted. Mr. Hewlett corroborated Mr. Logsdon's statement and yet the culprit was turned loose, upon a simple denial of his guilt. These are two of the thieves that the Railroad Company had to employ a detective to bring to justice in order to stop the depredations nightly being made upon their property. After they have been caught in the act and their guilt established beyond the shadow of a doubt, the company is denied the satisfaction of seeing them punished for their crimes.

Such a lax administration of the law is not giving the Railroad company the protection as a property holder that it has a right to expect and demand from the officials of a law-abiding community. Unless its property can be protected, it has just cause to seriously consider the proposition of moving its depot and side tracks outside the city limits, as it threatened to do last winter.

The Nelle Free Dramatic company is holding the boards at the Opera House and giving very satisfactory performances. The prices are at the greatly reduced figures of 10, 20 and 30 cents. The star, Miss Free, is a bright, pretty little soubrette actress, still in her teens and her dancing, singing and other specialties are highly entertaining to her audience.

The play last night was "Fanchon, the Cricket" and to-night "The Hidden Hand" will be presented. The company is a well balanced and very deserving one and is playing to good houses every night. A valuable present is given away each night to those buying tickets.

The Kansas City, Ft. Scott & Gulf R. R. now runs a through train, to leave Kansas City at 9:05 p. m., affording double daily connections from the North and Northwest to points in Southeastern Kansas, Southwest Missouri, Arkansas and all points South. Good connection is made at Nichols with S. L. & S. F. lines; at Hoxie with S. L. & M. & S. R. R. and Jonesboro with S. L. & T. Ry. and at Memphis with through trains on all lines to the South and Southeast. Local Express Train to Paola, Fort Scott, Harrisonville and Clinton leaves Kansas City at 5 p. m.

The Effects of Mental Exhaustion.

Many diseases, especially those of the nervous system, are the products of over-worked and exhausted business men.

Those often involve an amount of mental wear and tear very prejudicial to brain and nerves.

Those who are subject to the irritations of Hostetter's Stomach Bitters, that compensates for the under action of the bowels, may have a great relief to the brain and nerves.

The rapidity with which it removes weakness and fatigue is remarkable.

It is also that its invigorating properties are of the highest order. Besides the effects of mental exhaustion, this potential medicine cures and prevents fever andague, rheumatism, neuralgia, sciatica, hypertension, kidney and uterine weakness and other complaints. Physicians also commend it as a medicated stimulant and remedy.

SHE  
A History of Adventure.

By J. RIDER HAGGARD.

I turned my head, and as I lay gasping in the throes of that awful struggle I could see that Leo was off the rough now, for the lamp fell full upon him. He lay still on his back, but in the center of the square of straw, and those who were striving to pull him down as wolves pull down a stag. Up above them towered his beautiful pale face crowned with his bright curly hair (for Leo was six feet two high), and I saw that he was fighting with all the strength and energy that he was at once splendid and hideous to behold. He drove his knife through one man—they were so close to him and mixed up with him that they could not get at him to kill him with their big spears and axes, his assistants, and the weight of his body was too much for them to bear. And in a minute they were all up again, except one, whose skull was smashed, and had once more fastened upon Leo's help, for I was growing weak, and the two men on me were not yet dead, and a deadly sickness came over me.

Then suddenly there was a silence, and I saw his eyes again, and looked toward the scene of the fight. The girl Ustane had suddenly thrown herself on the top of Leo's prostrate form, covering his body with her body, and fastening her arms about his neck. They tried to drag her from him, but somehow she shielded him, and he was only wounded.

"A spear," cried a voice—"a spear to cut his throat, and a vessel to catch his blood." I shut my eyes for a moment, and my heart could not stir to Leo's help, for I was growing weak, and the two men on me were not yet dead, and a deadly sickness came over me.

Then suddenly there was a silence, and I saw his eyes again, and looked toward the scene of the fight. The girl Ustane had suddenly thrown herself on the top of Leo's prostrate form, covering his body with her body, and fastening her arms about his neck. They tried to drag her from him, but somehow she shielded him, and he was only wounded.

At last they lost patience.

"Drive the spear through the man and the woman together," said a voice the same who had used the question: "so of a verity shall they be made to faint."

Then I saw the man with the weapon straighten himself for the effort. I saw the cold steel gleam on high, and once more I shuddered.

"I did so—I heard a voice of a man thunder out in tones that rang and echoed down the rocky ways:

"Cease!"

Then I fainted, and as I did so it flashed through my darkening mind that I was passing down into the last oblivion of death.

CHAPTER IX.

A LITTLE FOOT.

When I opened my eyes again I found myself lying on a skin mat, not far from the fire round which we had been gathered for the round of tea. And Leo, I saw, was the first to rise, and over him and over the tall form of the girl Ustane, who was washing a deep spear wound in his side with water, preparatory to binding it up with linen. Leaning against the wall of the cave behind him was Leo, apparently unharmed, but bruised and tired. On the floor of the cave had this, the left, a body of men were engaged in binding the arms of the survivors of the cannibals behind them; and the bodies of those who had been killed in our frightful struggle for life. I counted them: there were two, and the two who had been slain by poor Malcolm, who had died by my hand, which the fire stained pot by its side, was placed at the end of the irregular line. To the left, a body of men were engaged in binding the arms of the survivors of the cannibals behind them; and the bodies of those who had been killed in our frightful struggle for life. I counted them: there were two, and the two who had been slain by poor Malcolm, who had died by my hand, which the fire stained pot by its side, was placed at the end of the irregular line.

Presently I turned, and perceiving that I was sitting up, advanced to me, and, with the usual courtesy, said that he trusted that I felt better. I answered that at present I scarcely knew how I felt, except that I ached all over.

Then he bent down and examined Leo's wound. "It's a nasty cut," he said; "but the spear has not pierced the entrails. He will recover."

"Thanks to your arrival, my father," I answered. "In another minute we should all have been beyond the reach of recovery, for those devils of yours would have slain us as they would have slain our servant," and I pointed toward Malcolm.

Then he ground his teeth, and I saw an extraordinary expression of malignity light up his eyes.

"Fear not, my son," he answered. "Vengeance shall be taken on them such as would make the flesh stink upon the bones more than upon the dead. To see the shame go, and vengeance pass, is a source of greatness. That man," pointing to Malcolm, "will tell you that man would die a merciful death to the death these hymen shall die. Tell me, I pray of thee, how it came about."

In a few words I sketched what had happened.

"Ah, so," he answered. "Thou seest, my son, here there is a custom that if a stranger comes into this country he may be slain 'by the pot' and eaten."

"It is a custom," he answered, with a shrug. "Myself I think it an evil one; but then, he added, by an afterthought, 'I do not like the taste of strangers especially after they have washed them in their own blood.'"

Then he ground his teeth, and I saw an extraordinary expression of malignity light up his eyes.

"Ah, so," he answered. "Thou seest, my son, here there is a custom that if a stranger comes into this country he may be slain 'by the pot' and eaten."

"I took this cold fragment of mortality in my hand, and looked at it in the light of the lamp with feelings which I cannot describe, so mixed up were they between astonishment, fear and fascination. It was light, much

lighted old baboon fat thou art, had been in the ribs of three who are laid out there as though they were but the shell of an egg! And the young one, the lion, it was a beautiful fight that he made—one against so many—three did he slay outright, and that one, "an' all the rest, he did not, that he still moves a little, will die another, for his head is cracked across, and others of those who are bound are hurt. It was a gallant fight, and yo' and yo' have made a friend of me for I love to see a well fought fray. But tell me, my son, the Baboon, is he, and altogether like a baboon—how is he?—we saw both those with a hole in them? They made a noise, they say, and slew them—they fell down on their faces at the noise!"

I explained to him as well as I could, but very shortly—I was terribly interested in the story, and I was afraid of offending him, so I refrained from doing so powerful if I refused to do so—what were the properties of gunpowder, and he instantly suggested that I should illustrate what I said by operating on the person of one of the prisoners. "Daily," he said, "I have been to the prison, and it would not only be very interesting to him, but would give me an opportunity of an instalment of revenge. He was greatly astounded when I told him that it was not our custom to avenge ourselves in cold blood, and that we left the punishment of those who were guilty to the law and a higher power, which of which he had not yet seen. I then told him that Job had proued down his head, and our conversation came to an end.

After this we managed to get Leo, who was in a very poor way indeed, and only half conscious, safely off to bed, supported by Job and I, and I was afraid she might resent it, I should certainly have given a kiss for her splendid behavior in saving my dear boy's life at the risk of her own. But Ustane was not the sort of young person with whom one would care to have a kiss, and she was very much surprised when I told her that Job had proued down his head, and I was afraid she might resent it, I should certainly have given a kiss for her splendid behavior in saving my dear boy's life at the risk of her own. But Ustane was not the sort of young person with whom one would care to have a kiss, and she was very much surprised when I told her that Job had proued down his head, and I was afraid she might resent it, I should certainly have given a kiss for her splendid behavior in saving my dear boy's life at the risk of her own.
